# Parental ICT Induction

At St Katherine's we make extensive use of **Google Apps for Education (GAfE)** and the entry point for all applications is Google Chrome. We would therefore encourage all student to set up Chrome at home so that they are logged in with their '**skdrive.org**' account. This will ensure that bookmarks, passwords and work completed in school will always be available at home. To login to Chrome you should click on the person icon in the top right corner. Once logged in this icon should be replaced by your name.
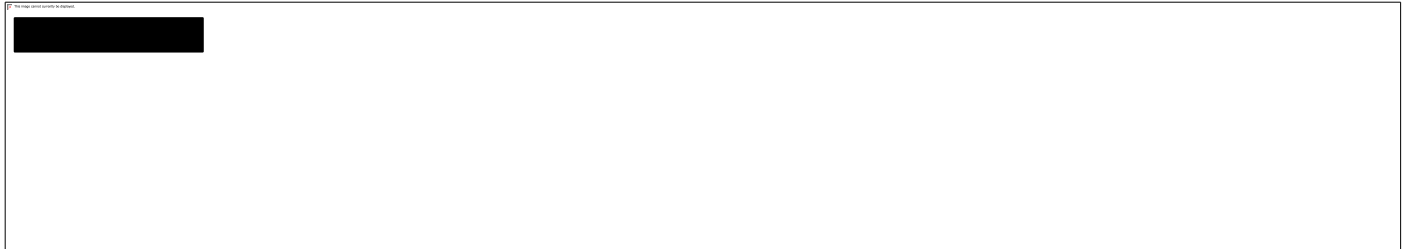

Parent Portal

All parents will be provided with access to our parent portal where you can view your child's attendance, behaviour and assessment records as well as book appointments for student progress evenings.

Booking for student progress evenings can be found by clicking on the 'Main Menu' button.

Parent Pay

Whilst payment can be made in person at our finance office it is often easier to view and pay for items online.
https://www.parentpay.com/
On the homepage you can view all items that are available for payment and add them to your basket before heading to the checkout.

To see how your child is spending their dinner money you can view the transaction history.

Show My Homework

All homework at St Katherine's will be recorded on this system for viewing by both students and parents.
https://stkatherines.showmyhomework.co.uk/school/homeworks/calendar

It is not necessary to login to this site. Simply use the drop down menus to select a year group and it will show all homework that has been set for all classes. This can be further filtered by subject and teacher.

All students and parents will however be provided with a login, allowing them to see only the work that is relevant.
