

Turing House – Term 5 update

We are now at the end of Term 5 and what busy term it has been!

The sustained effort by all house members in the array of different achievements is really quite remarkable. I would like to thank every single Turing House student for their enthusiasm and determination.

It is always crucial for me to remind you all, that I am supported in so many ways by the brilliant Tutor Team and House Leader, Amelia Scott.

Turing House students have had a very busy term, particularly at the top end. The GCSE examinations are underway and I would like to remind all of those taking exams, to focus on their strengths and to remain as calm as possible in this important time. I am sure they will all be rewarded for their efforts and the sacrifices they have made to prepare for their exams.

We recognised the incredible achievements of Turing students at the House Celebration Evening this term. It was a pleasure to welcome the award winners and their parents/carers to a fantastic evening which also included performances from two talented Turing students - Edith Powell and Willow Estcourt

On the evening, each Year Group had a winner, from these an overall subject/award winner was selected for each category

There have been other notable successes by Turing students who have represented the core values of Turing in every respect, I am really proud of their achievements.

The Inter-House competition is once again a very close run affair. Turing is currently in third place on 344 points, not far behind the joint leading houses.

The latest Fun Fix Friday competition was a mini “Guinness Book of Records” and I was so proud when Turing came out in first place. Well done to all of those participants and supporters.

The Accelerated Reader Competition saw Patrik Miles as a very worthy “Word Millionaire”. In Year 7 and 8 the top Accelerated Reading Quizzers were:- Lucy Holloway, Nahla Mengoud, Jake Packham, Patrik Miles, Hollie Andrews, Maida Mohamed, Nicole Conbeer. Our Top Accelerated Reader points earners in Year 7 and 8 were:- Phoebe Oakman, Patrik Miles, Emily Earle, Hannah Lange, Amritveer Gill, Nicole Conbeer, Maida Mohamed

Congratulations to all Turing students with 100% attendance this term putting Turing in second place for attendance. This has been boosted by 101 Turing students improving their attendance for three weeks or more this term. This is really encouraging news.

Congratulations to Joseph McLoughlin and Eleanor Hall who both received Amazon vouchers for their outstanding attendance records.

Once again Turing have come out on top in the 95% Behaviour Ratio statistics. A total of 90 students across Years 7 to 11 have exceeded this target, well done to each and every one of you. Lets see if even more students can join them in the final term of school. It is a very clear indicator of students commitment to learning.

As always, I would like to recognise the achievements of the Magnificent Termly Turing students. These students have once again consistently demonstrated one or more of the core values of Turing (Unity, Acceptance and Determination) and sustained this over the whole of Term 5. Their attitude and behaviour are an example to all students at St Katherine's. Congratulations to the below on this fine achievement:

TURING Tutor Group	Magnificent Turings
7T1	Lucy Holloway Hector Mackenzie- Andrieux
7T2	Jack Heptinstall Phoebe Oakman
8T	Balint Fekete Ruwada Dahil
9T1	Abdi Culusow Courtney Hawkes
9T2	Deya Reynolds Jess Stanley
10T	Jaz Peacey Courtney Dun

I hope that everyone has a well-earned break over the May Half Term holiday and returns to school with fresh enthusiasm and energy for the challenges of Term 6

Mrs Hannah Price
