

26 February 2020

Dear Parent/Carer

### **Update on Covid-19**

Further to my update yesterday we continue to follow advice from the Public Health England. Our ski trip returned from the Piedmont region of Italy where the advice remains on being vigilant in case symptoms appear.

The following symptoms may develop in the 14 days after exposure to someone who has Covid-19 infection:

- cough
- difficulty in breathing
- fever

The advice we continue to receive from Public Health England is for anyone showing symptoms to self isolate for 14 days and call 111 for further testing. Those without symptoms should continue as normal.

We recognise this is a dynamic situation which continues to evolve. We are monitoring developments closely each day and will keep everyone updated. We encourage all parents/carers and children to remain vigilant to any symptoms.

We are providing hand sanitisers across the school site and are promoting the good hygiene messages contained within the [Public Health England posters](#).

Should you have any concerns please do not hesitate to contact us at school.

Yours sincerely

Justin Humphreys  
**Headteacher**
